

# CC COLLECT

The CC Collect was designed for multiple collections. The unique deposit system can accept up to 350 banknotes per collection. The container can be configured and customized according to the number of deposits, openings, time intervals, and other settings chosen by the client. The CC Collect is part of a range of CC products including a series of common accessories. The CC Collect's high level of security is certified by the ANPI.

Effective & Innovative collect system

Ready to use & Simple to maintain

350 banknotes per drop

Cost effective & Scalable

Customizable

CC Collect has been designed for secure multi-collection. Unique electronic deposit system can receive max 350 banknotes per drop. Intelligent drop system can be configured and customized: number of drops, number of openings, time slots, and other parameters of customer's choice.

## TECHNICAL DATA

Range	Notes Capacity	Dimensions external LxWxH (mm)	Dimensions Internal LxWxH (mm)	Weight (Kg)	Volume (l)	Power
CC Collect	4,800	510 x 230 x 428 (20"x9"x20,6")	345 x 115 x 327 (13,6"x4,5"x12,9")	11	13	Lithium battery 7,2v (lifetime: 1 year)

## SECURITY FEATURES

- Intelligent Banknote Neutralization System (IBNS)
- Secure deposit system (max 350 notes per deposit)
- Settlement of deposit before re-opening
- Impregnable - impossible to gain unauthorized access
- Programmable number, time and duration of openings
- Mechanical double locking
- Secure access control
- Dual authentication system (transporter and client)
- Black box for reports and analyses

## DESIGNED FOR EASE OF USE

- Quick and easy operation
- No protruding corners
- Automatic opening of the drum and lid
- Status indicator
- Battery level indicator

## OPTIONS

- CC Manager
- Fog system
- Alarm 110db
- Trolley
- M2M communication
- GPS/GPRS
- Remote
- Vehicle rack
- Liquid sensor

## HIGH SECURITY INK

- High staining performance : 100% of banknotes and 20% of surface area of each note
- Fast ink staining response (milliseconds)
